Safeguard your property:

- Property marking – security mark your tools and other property to deter criminals - either engrave or obviously mark them with a permanent marker or paint, with your postcode and house number. Also use an ultraviolet pen to mark covertly the tools or use a covert product, such as SMARTWATER or Selecta DNA.
- Secure your tools and property– ensure they are secured to a fixing anchor (floor/wall) and locked when not in use. Chain together any power tools.
- Move high valued items to the main house.
- Alarm your shed/outbuilding/garage/workshop. Consider CCTV and fit security screws to hinges and hasps/staples. Secure windows and make it difficult to see inside.
- Fit security lighting. Keep shed doors closed.

A lot of people assume that they don't need to protect their shed or garage. It's just a storage shack. Despite holding such valuable items, sheds are rarely secured properly.

Whether your shed/garage/outbuilding is attached to your home or not, it should receive the same level of security as the rest of your residence and surrounding property.
